

ABDUL REHMAN

Full Stack Web Developer

 abdulrehmaan7151@gmail.com |  linkedin.com/in/abdul-rehman864b51395 |  [abdulrehman-sage.vercel.app](#) |  Pakistan

PROFESSIONAL SUMMARY

Passionate Full Stack Developer with demonstrated experience building responsive, scalable web applications using modern JavaScript frameworks and backend technologies. Strong problem-solver with proven ability to integrate frontend and backend systems. Eager to contribute to production-level projects while expanding expertise in React, Node.js, and cloud technologies.

TECHNICAL SKILLS

Frontend Development: HTML5, CSS3, JavaScript (ES6+), React, Responsive Design, DOM Manipulation

Backend Development: Node.js, Express.js, RESTful API Design, Middleware Configuration

Database & Data: MongoDB, CRUD Operations, Data Modeling

Tools & Workflows: Git, GitHub, VS Code, REST Client Tools, Command Line, npm

PROFESSIONAL EXPERIENCE

Full Stack Web Developer | Self-Directed Projects | 2025 – Present

- Architected and deployed full-stack web applications using JavaScript, Node.js, Express, and MongoDB, implementing MVC patterns for scalable code structure
- Designed and tested RESTful APIs with proper HTTP methods, status codes, and error handling for seamless client-server communication
- Built responsive user interfaces using HTML5 and CSS3, ensuring cross-browser compatibility and mobile-first design principles
- Integrated MongoDB databases with backend services, implementing data validation, indexing, and optimized query performance
- Maintained project version control using Git and GitHub with clear commit messages and collaborative workflows

KEY PROJECTS

Full Stack Portfolio Website | Frontend: HTML, CSS, JavaScript | Backend: Node.js, Express

- Developed personal portfolio with functional contact form connected to Node.js backend
- Implemented form validation, email functionality, and responsive design showcasing web development projects

Full Stack CRUD Application | Node.js, Express, MongoDB

- Built complete CRUD application with MongoDB database backend, enabling Create, Read, Update, and Delete operations
- Implemented proper routing, error handling, and middleware for production-ready data management

API Integration & Dynamic Data Projects | JavaScript, Fetch API, Async/Await

- Created multiple applications integrating third-party APIs with real-time data handling
- Mastered asynchronous programming concepts including Promises, Async/Await, and error management

EDUCATION

Bachelor of Science in Computer Science | Currently Pursuing

Focus: Full Stack Development, Web Technologies, Software Engineering Fundamentals

CORE COMPETENCIES

Development Skills: Frontend Development, Backend Development, Full Stack Architecture

Technical Expertise: REST API Development, Database Design, Asynchronous Programming

Professional Attributes: Problem-Solving, Adaptability, Quick Learner, Self-Motivated

Code Quality: Version Control (Git/GitHub), Code Organization, Debugging, Testing

CAREER OBJECTIVES

- Secure a Junior Full Stack Developer or internship position at a forward-thinking tech company
- Build production-ready applications while contributing to team goals and industry best practices
- Continuously expand expertise in modern frameworks, cloud technologies, and advanced development patterns
